

INTERMODAL

CANADA DIRECT

## RAIL SHIPMENTS THAT FLY ACROSS THE CANADIAN BORDER. MEET CANADA DIRECT.

With Schneider Intermodal Canada Direct, your shipments ride across the world's largest international bilateral trade lane to Toronto and Montreal without batting an eye. Border requirements are part of our DNA, so we naturally prepare your shipments to move across them smoothly and cost effectively — we call this Canada Direct. Once in Canada, your freight rolls where you want it, when you want it. One call and done. Another good day's work handled right.

### RELIABLE, COST-EFFECTIVE AND ECO-FRIENDLY. NOT A BAD WAY TO TRAVEL.

Schneider Intermodal's Canada Direct makes intermodal shipping freight up North — and down South — as reliable as the sunrise. We know the ins and outs of the border so we preclear your shipments to move across borders without hassle or costly delays. Since 1990, we've looked to our intermodal experts on the ground at our brick and mortar facilities in Toronto, ON, and our seasoned drivers in Montreal to help keep our operations running smoothly.

- **One trusted point of contact, one sure place to turn.**

Canada Direct gives you a single reliable point of contact with the know-how to keep your freight moving, avoid costly delays and spare you the aggravation. If your shipment does hit a snag, you can count on us to keep on top of it and keep you in the loop.

- **Head to the front of the line.**

As the largest asset-based intermodal provider in Canada, our strong relationship with Canadian National railroad helps ensure that your shipments get priority placement so your load gets on board and arrives on schedule.

- **More cost-effective, more savings on fuel, more black to the bottom line.**

For regularly scheduled shipments, intermodal is a smart card to play for keeping costs contained and satisfaction high. Rail also helps offset rising fuel prices.

As a charter member of the EPA SmartWay Transport Partnership Program, and four-time winner of the EPA SmartWay Award of Excellence, we've helped our customers reduce their carbon footprint while improving service and reliability.

- **We're never satisfied with being satisfied.**

We're always on the hunt to find fresh ways to deliver more value and lower operating costs. If there's a better way, look to Schneider to bring you better answers.

See how Canada Direct can help you move goods up to Canada smarter, faster and more cost-effectively. **Give us a call at 1-920-592-4019 or email [moveit\\_im@schneider.com](mailto:moveit_im@schneider.com)**

# YOUR SHIPMENTS MOVE ON TIME AND ARRIVE ON TIME. THAT'S CANADA DIRECT FOR YOU.

With Canada Direct, we keep your shipments moving by preclearing them before they reach the border and avoiding costly delays. When you're running freight on the rail, count on Schneider Intermodal Canada Direct to contain costs and deliver satisfaction.
