

TWO DRIVERS, ONE TRUCK AND AN ALL-OUT, AROUND-THE-CLOCK SENSE OF URGENCY.

There's only one right way to move high-stakes shipments, and that's with Schneider Expedited Services. When it comes to high-security and time-sensitive loads, no one delivers faster — or more securely. Bank on it.

SAFE, SECURE AND RIGHT ON TIME.

Schneider Expedited Services deploy nearly 1,000 driver teams that work in tandem to keep your freight on the move at all times. With more teams at our disposal than anyone else, you can count on all the capacity you need.

Here's why Schneider Expedited is best:

- **Your freight is secure — and rolling**
Our driver teams are the most highly skilled, security-minded on the road and undergo the most rigorous training in the industry. They keep your shipment moving.
- **Real-time knowledge gives you real-time power**
To make sure nothing gets in the way of your promised delivery, we manage and monitor every load from the time it's tendered until it's received. Beyond the team behind the wheel, we track every tractor and trailer by GPS, so we know exactly where they are at all times.
- **When your freight can't roll, it's locked under guard**
Should a truck ever need to stop for more than fuel, it pulls into one of our guarded, fenced and monitored lots across North America. There is always someone in the truck so your freight is always secure.
- **Custom-fitted defensive transportation plans**
We tailor our security plans to outfit your business with the highest level of protection.

Assign your next high-value or time-critical load to Schneider Expedited Services and sleep well at night.

**Call 1.800.558.6767, Ext. 4006,

WE COVER MORE GROUND, SAFER, FASTER, AND MORE SECURELY THAN ANYONE.

With a nationwide network of secured lots, staging areas and 22 operating centers situated strategically across the United States and Canada, we're able to deploy Expedited teams quickly to keep your freight secure at all times. What's more, a core team of operations experts makes sure that when you have a time-critical load, we bring the horsepower and expertise to deliver. No question about it, expedited shipments draw our highest level of attention — and customer satisfaction.

NO ONE GOES FURTHER TO DELIVER AS PROMISED.
